D-Day. The American Air Force parachutes its best men at the heart of occupied France.

The best? Not only ... Four strayed soldiers from an improvised unit, united by a total incompetence in war and an agreement on hiding « until it all goes away ». If the world is undergoing the largest conflict human kind has ever known, they are dead set on staying alive... And meeting some French girls along the way...

What they don't know is that destiny has a much more important role for them.

Clumsy, somehow coward yet charming, they form the most peculiar unit in the American army: four idiots, who will unintentionally change the course of History : they are the Lazy Company.
